To create a PLT file for an HP plotter:

In AutoCAD, click on file on upper menu bar, then select plot.

Select the DesignJet 755CM plotter

If not available, please refer to "Add an HP plotter" which is a downloadable PDF from Jeffcoat's web site.

Select to appropriate sheet size for your PLT file.

Then choose the corresponding scale you want your file to be printed in.

In preview screen make sure file is not cut off, rotated incorrectly, too small to see, all required images are present and viewable, etc.

Note this will be the last opportunity to view the file before creating a PLT file.

***You can't view PLT files. ***

Select "OK"
